Accessibility Baseline & Repository Architecture Audit

Target: Tamil Nadu Government Portal — https://www.tn.gov.in/

Audit date: 13 November 2026

Executive summary

This report documents five prioritized accessibility and architecture improvement areas for the Tamil Nadu Government Portal and defines evidence-based remediation. The audit distinguishes official-source observations from keyboard and Lighthouse verification that must be performed live. No Lighthouse score or manual test result is fabricated.

Prioritized findings

ID	Finding	Priority
WEB-001	Validate keyboard navigation and focus order	P1
WEB-002	Verify visible focus and focus obstruction	P1
WEB-003	Improve service catalogue information hierarchy	P1
WEB-004	Verify advertised accessibility controls by keyboard	P1
WEB-005	Separate client, API, use-case and persistence boundaries	P2

Live evidence still required

Run Lighthouse against https://www.tn.gov.in/ and save the HTML report. Perform a mouse-free Tab/Shift+Tab/Enter/Space keyboard pass. Capture the Lighthouse summary and real keyboard focus/navigation screenshots in docs/screenshots/. Do not substitute generated images.
